

## Strong links save lives

- NPSA and community pharmacies have navigated the 60DD changes providing seamless patient access to chronic medications
- Increasing need to deploy emergency responses with more frequent extreme weather events
- CSO is critical – 24-hour guarantee, high service levels, equity of access to Rx Australia wide

## Experts in health logistics supporting Pharmacy and Government

- Unique visibility across the supply chain means we can provide insights and solutions
- Wholesaler investment in the supply chain continues
- Capacity, capability and willingness to increase Wholesaler scope.
- Growth in S100s in community pharmacies will improve patient access

## Strengthening the supply chain through policy reform

- Requires ongoing investment and innovation to meet changing environmental and patient needs
- CSO needs to reflect the increasing cost to serve
- Wholesaler margin decline over the past 5 years must be addressed in the current negotiations with Government
- Healthcare investment delivers good patient outcomes
